

Gyptech COVID-19 Update

The impact of COVID-19 continues to be felt by people all around the world. In this changing and complex environment, Gyptech is committed to the safety of our employees, customers and communities. We are actively responding to the current situation as it happens and making adjustments to do our part to slow down the spread. Gyptech continues to operate as an essential business and is continuing to serve our customers around the globe. We have outlined our response and current business operations below:

- ✔ **Service & support staff available.**
Our office staff are working remotely from home offices without any interruption to our services and support. You can call or email us for all your parts, equipment and service needs.
- ✔ **Fabrication shops operational.**
Our fabrication shops continue to manufacture your equipment and parts, following our high-quality standards as always. We have made changes to allow employees to practice strict social distancing and sanitation practices.
- ✔ **Supply chain fully functioning.**
Our supply chain is fully functioning and we are monitoring our network daily.
- ✔ **Shipping parts and equipment.**
We continue to make shipments with no major interruptions. We know our products are essential for plants to operate and we continue to make this a priority.

In this continually evolving landscape we will follow the recommendations of government and health officials. We are strongly encouraging our employees to stay at home as much as possible and to take extra care washing their hands and practicing social distancing in all areas of their life.

We know this is an overwhelming time and a lot is changing day by day. Our thoughts are with those who have been directly impacted by this pandemic. We thank you for your continued business. We are here to support you in the days to come.

Let's continue to look out for one another.
